RECRUITMENT CAMPAIGN PROPOSAL

17,561 Myanmar students studied in Thailand in 2025. Is ICT Mahidol on their list?

17,561

Myanmar students in Thai higher education in 2025

Up from 7,972 in 2023

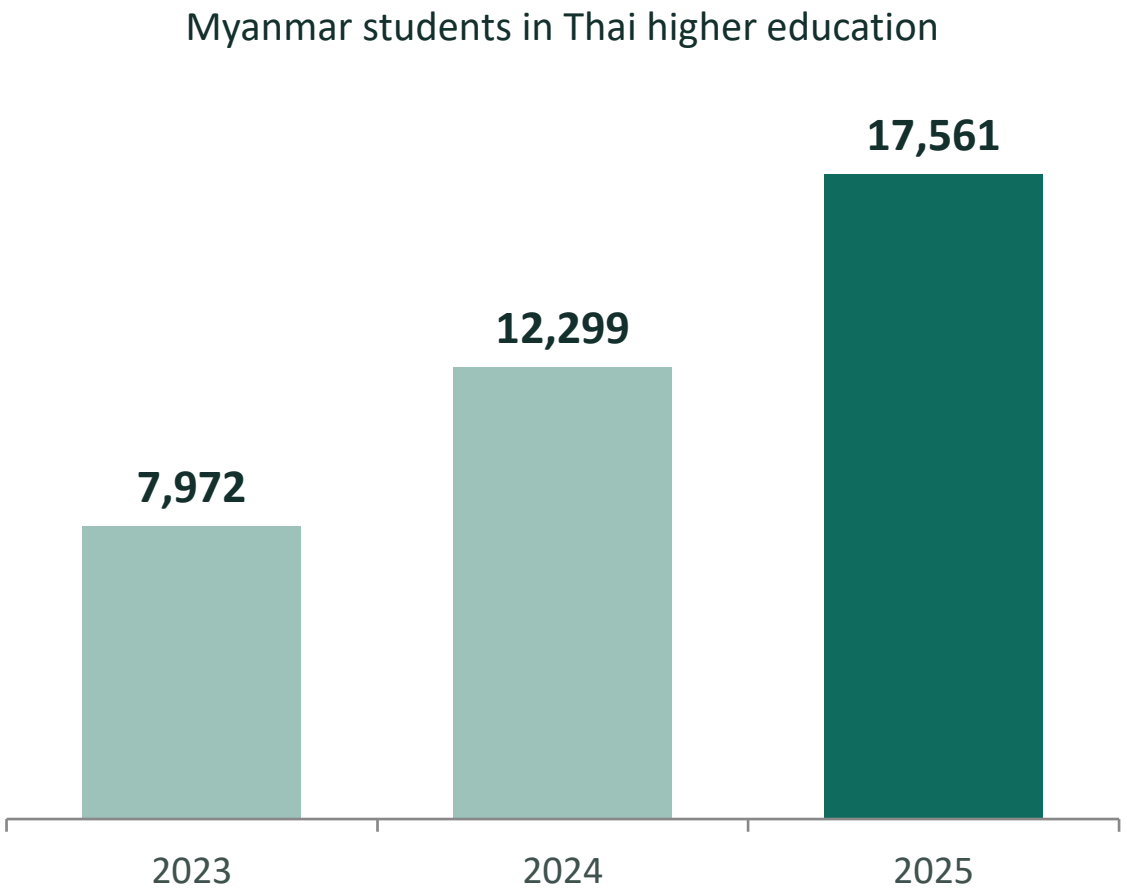

World-ranked ICT, close to home

International Recruitment Team: Korn, Phupa, Euro and Q

Source: Ministry of Higher Education open data, first semester of academic year 2025

THE OPPORTUNITY

Myanmar students in Thailand doubled in just two years

First-semester students at all levels. Ministry of Higher Education open data

Why Thailand

Education quality, scholarship opportunities and a relatively low cost of living

Why now

UK study visas for Myanmar applicants stopped in March 2026, and visa rules in other destinations can change

Why Mahidol

More than half of Myanmar students (9,728) attend private universities, so a leading public university can stand out

Sources: Ministry of Higher Education open data; The Irrawaddy, 2026; The Star, Mar 2026; Faculty of ICT Information Pack

THE TARGET AUDIENCE

Students want a degree that counts; parents want trust

Prospective students

School leavers and those restarting, mostly aged 18–29

Need practical ICT skills and years that count

Parents

Weighing overseas study for their children

Need family confidence, safety and affordability

Stability

Four years without interruption

Credible degree

Years of study that count

Predictable cost

A budget families can plan

English

Skills for a global career

Simple admission

Clear steps from home

First focus: students taking SAT, GED or international-school courses in Yangon

Sources: team meeting, 4 Nov 2026; Information Pack (Asia priorities); Thai PBS World, Mar 2026; MUIC, Apr 2026

THE CAMPAIGN PROPOSAL

Two tailored materials will reach each audience

Audience	Material	How it reaches them
Parents	**Infographic** The key facts and benefits at a glance	• Facebook and Messenger • Myanmar alumni network • Thailand Education Fair
Students	**Landing page** Programme details, benefits and next steps	• TikTok and Facebook short videos • Online events • SAT and GED centres, international schools

One destination

The Faculty's official 2027 admissions page, where families check requirements and apply

Channels proposed by the team, using the Information Pack's digital and school-partnership opportunities. Burmese versions need native-speaker review.

THE CAMPAIGN PROPOSAL

The pilot follows the admission calendar from Round 2

1

By 30 November

Prepare

Management approves the pilot and Admissions completes three checks

Decision point

2

December

Reach students

The landing page goes live, with TikTok and Facebook posts

Round 2 closes 31 Dec

3

January–March

Reach parents

The infographic is shared on Facebook, on Messenger and through alumni

Round 3 closes 31 Mar

4

April–May

Meet families

Join the Yangon education fair with MUIC, if it runs again

Round 4 closes 15 May

June 2027: we report results to management, before the Preparatory Program and the August semester.

Admission dates: ICT International Direct Admissions 2027. The next fair date is not announced; the 2026 fair ran on 2–5 April.

OUR USP

One promise answers what Myanmar families need most

“A world-recognised, English-taught ICT degree from one of Thailand’s top two universities, one flat fee, close to home, and a launchpad to funded internships abroad.”

#345

in the world, QS World University Rankings 2027

English

in every course, plus 12 credits of language study

90,000

THB flat fee per semester, 720,000 THB in total

1.5 hrs

direct flight from Yangon to Bangkok, approximately

75

students interned in 7 countries last year

USP agreed 4–0 at the team meeting, 4 Nov 2026. Figures: Information Pack and Faculty of ICT sources, listed on slide 14.

WHAT MAKES US DIFFERENT

ICT Mahidol stands apart from the main alternatives

Family's alternative	What they face	ICT Mahidol's difference
Studying in the UK	New study-visa applications stopped in March 2026	**A direct flight of about 1.5 hours from Yangon**
Private universities near Bangkok	Where more than half of Myanmar students study	**A public university ranked 345th in the world, with an AUN-QA Level 6 programme**
English-taught ICT degrees elsewhere	Costs, rules and exchange rates vary by country	**One flat fee, plus internships in 7 countries for 75 students last year**

Sources: The Star, Mar 2026; Ministry of Higher Education open data; Information Pack; Faculty of ICT. Fees and ranks of named competitors are not compared here.

KEY MESSAGES

Five key messages answer families' biggest questions

Will the degree count?

Earn your ICT degree from Mahidol, ranked 345th in the world (QS 2027), on a course evaluated to ASEAN standards (AUN-QA).

What could it lead to?

Last year, 75 ICT Mahidol students got internships at 17 partners in 7 countries. You could be next.

Will my child be alone?

17,561 Myanmar students studied in Thailand in 2025. Join the community who call Thailand their second home.

Is it hard to start?

Read our fact sheet in Burmese, then apply online without travelling. Round 2 closes on 31 December 2026.

Can we plan the cost?

As ASEAN neighbours, we believe great education should be for everyone: one flat fee of 90,000 THB a semester.

The five messages chosen by vote on 4 Nov 2026, checked against the Information Pack and official Faculty pages.

EXPECTED BENEFITS

The pilot should widen reach, awareness and enquiries

Reach more

More students and parents in Myanmar see the Faculty

We measure: reach by channel

Raise awareness

Families learn what the B.Sc. in ICT offers and what it costs

We measure: page visits and fact-sheet clicks

Prompt action

More families find out about studying at Mahidol, and more students apply

We measure: enquiries and Myanmar applications

52 of 800

ICT programme students were international in the Faculty's 2024 fact sheet, so there is room to grow. We will set targets once Admissions shares the current Myanmar figures.

Faculty of ICT Fact Sheet, 2024. Measures proposed by the team.

SUPPORTING EVIDENCE

Research supports each campaign decision

17,561

Target Myanmar

Myanmar students in Thai higher education, first semester of 2025

Ministry of Higher Education open data

21.0M

Use short video and social media

Adults reachable on TikTok; Facebook reaches 13.7M, late 2025

DataReportal, Digital 2026: Myanmar

500+

Speak to parents too

MUIC, Mahidol University, Apr 2026

US$33bn

Lead with career relevance

Digital investment applications in Thailand, first half of 2026

Thailand Board of Investment, Jul 2026

Full links on slide 14. Advertising reach is not the same as active users.

SUPPORTING EVIDENCE

Mahidol has already started, and this campaign builds on it

28

Thai universities took part in the Yangon education fair in April 2026, with support from the Royal Thai Embassy

Mahidol's first steps

- The Faculty already publishes a fact sheet in Burmese
- MUIC ran a booth and a seminar at the 2026 fair
- MUIC also visited a SAT and GED centre and an international school in Yangon

As one Mahidol, we can continue a path the Faculty has already chosen.

Sources: MUIC, Mahidol University, Apr 2026; ICT International Direct Admissions 2027 (Burmese fact sheet)

SUPPORTING EVIDENCE

Three checks with Admissions will protect our credibility

Maths test rule

Does the Myanmar school exam meet the Faculty's maths rule? The 2027 page does not list it.

Until confirmed: focus first on SAT, GED and IGCSE students

Interview format

Will 2027 interviews be online? Round 1 for 2026 was online, but the 2027 page does not say.

Until confirmed: we promise only that families can apply online

Scholarships

What are the 2027 amounts, and can international students receive them?

Before launch: confirm, because our USP says "funded"

We would rather check now than make a promise the Faculty cannot keep.

Team owner: Korn, with MUICT Admissions. Sources: ICT Direct Admissions 2027; ICT news, Oct 2025; 2027 Internship Abroad, Round 1.

OUR RECOMMENDATION

Please approve the pilot by 30 November 2026

1

Approve the pilot

Run it on the Faculty’s existing channels through Round 4

2

Confirm the three checks

Ask Admissions to settle the maths, interview and scholarship questions

3

Name one contact

Give Myanmar families one person to reach at the Faculty

We have already drafted the infographic and landing page, ready for your review.

A decision by 30 November leaves one month to reach families before Round 2 closes on 31 December.
